

# Federico Canepa awarded the dual Ph.D. degree in Wind Engineering

In the framework of the dual doctoral degree agreement between the University of Genoa (Italy) and the Western University (Canada), on 17 June 2022 the defence ceremony on the dissertation entitled "Physical investigation of downburst winds and applicability to full scale events" by our Ph.D. Federico Canepa took place at Western University in Canada. Our heartiest congratulations and all the best for his future to Federico by all the staff of the GS-Windyn Group.
